Libraries: Bootstrap, Tailwind CSS, Playwright, Pandas, Matplotlib
Developer Tools: Git, Postman, MySQL Workbench, Jupyter Notebook, UIPath
Project Management: GitHub Projects, Jira, Smartsheet, Notion, Azure Boards

EXPERIENCE

Quality Assurance Intern   May 2024 – Sept 2024
LawAdvisor Ventures   *Makati, PH*

- Gained experience in test case creation, ticket verification with Jira Xray, and an overview of test automation using Robot Framework.
- Conducted thorough testing and documented bugs to support efficient issue resolution, ensuring software quality for stakeholders and clients.
- Collaborated with cross-functional teams, improving communication and teamwork to meet project objectives.
- Assisted in refining testing processes by identifying minor inefficiencies and suggesting improvements.

VOLUNTEERING

Data and ML Cadet   Dec 2024 – Present
Google Developer Groups on Campus PUP   *Manila, PH*

- Leveraged community engagement to enhance skills and deepen knowledge in data and machine learning.
- Participated in webinars and earned certifications in data science, specializing in data engineering.
- Datacamp Scholar, dedicated to continuous growth in data science and engineering.

Vice President for Communications   Oct 2023 – Sept 2024
PUP Taguig Computer Society   *Taguig, PH*

- Oversaw event planning and task management with Notion, streamlining workflows for seamless execution.
- Fostered effective communication and collaboration, enhancing team synergy and leadership dynamics.
- Created compelling content on Meta, boosting interaction and organization's online presence.

PROJECTS

BioSync - Biometrics Attendance & Scheduling System | *Angular, SpringBoot, Flask, Postman, GitHub Projects*

- Spearheaded the capstone project as Project Manager, managing task delegation, tracking progress, and fostering seamless team collaboration to meet project milestones.
- Conducted in-depth end-to-end testing with the client, identifying and resolving issues to ensure optimal system performance, reliability, and user satisfaction as a QA and Business Analyst.
- Created detailed documentation and charts to ensure compliance and system clarity as a Document Analyst.
- Implemented email notifications to improve system communication and user engagement.

Space Share | *Angular, daisyUI, Postman, Jira, GitHub Projects*

- Managed the development of a tenant-property owner platform, overseeing task tracking and team collaboration using GitHub Projects and Jira.
- Enhanced system performance and user experience by refining key features and optimizing functionalities.
- Conducted rigorous testing and quality assurance to ensure system stability and reliability.
- Integrated automated email notifications to improve user engagement and seamless communication.

VRZN Banking System | *Hostinger, Semaphore, Postman, Azure, Smartsheet*

- Led the development of a secure web banking platform, integrating OTP authentication via Semaphore API.
- Managed project timelines using agile methodologies to ensure smooth execution and timely delivery.
- Optimized deployment on Hostinger by automating updates with webhooks, improving system reliability.
- Designed and rigorously tested security protocols to safeguard data integrity and ensure secure transactions.

EDUCATION

Polytechnic University of the Philippines   Taguig, PH
Bachelor of Science in Information Technology   *2021 – Present*
